

Online Privacy and Rights of Students: Our Commitment to You

NoodleTools is specifically designed as a private, secure teaching and learning space. At NoodleTools, we respect the online privacy rights of students and their instructors. We also protect the work and authorship of those using our platform.

We are parents and educators, as well as founders of an online education company. Like you, we are disturbed by the many examples of quality education eroded at the hands of marketing and profit-making.

Our commitment to every NoodleTools student, parent, and instructor is the following:

1. We do not collect any personally identifiable information from children under 13.
2. We do not collect, maintain, use or share personal information beyond what is necessary for authorized educational / school or legal purposes.
3. We will never sell any personal information to any third party.
4. There is absolutely no tracking of any personal information for third-party or marketing purposes on NoodleTools.
5. We will never expose any student, teacher, or other user of NoodleTools to any third-party advertisements on our site.
6. NoodleTools makes every effort to comply with all applicable federal and state data privacy laws including the Children's Online Privacy Protection Act ("COPPA") and the Family Educational and Privacy Rights Act ("FERP").

Find our full Privacy Policy at www.noodletools.com/privacy. It describes our stringent policies for protecting personal information in clear language that you – as an administrator, teacher, parent or student – can understand.
