

The Notecard Tabletop *explained*

1. View/hide outline.
2. Print or export to Word, Google Docs, etc.
3. Manage existing text tags, undelete a notecard, get help.
4. Search by keyword, source, team member or tag (text, visual cue, or color).
5. Create a new notecard.
6. Pin a note or pile.
7. Mouse-over a notecard or pile to display available actions (e.g., tag, pin, delete).
8. Tabletop View is the active view.
9. Drag one notecard onto another notecard to create a notecard pile.
10. Click arrow to open pile.
11. “Visual cues” display as icons (e.g., exclamation mark, magnifying glass).
12. Scroll to view notecards and piles that are not in the current view.
13. Create titled “pages” of notecards, to work with sets of notecards separately.
